Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The rejection of the claims under 35 USC 102 over Watanabe, Weibel and Bunker has been withdrawn in view of applicants' amendments to the claims.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3, 4, 6-11, 13, 14 & 16-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Watanabe (5,690,981) for reasons of record alone or if necessary as further evidenced by Lowe.

Applicant has amended the claims to recite that the claimed emulsion is an oil-in-water emulsion. Although Watanabe does not mention the type of emulsion prepared in the example, it would have been obvious to expect the composition of example 5A to be an oil-in-water emulsion. The evidence for this assertion is that the water content of the product is much higher than the oil content in example 5A. Second, the product is formed with egg white, a known emulsifier for oil-in-water emulsions and Lowe, on page 271, is relied upon for evidence to support this assertion. The carbohydrate content of example 5A falls within the range of the claims.

No unobvious or unexpected result is seen from the dissipation rate in the mouth and in the droplet size. Homogenization of foods is known to create products with low droplet sizes. No unobvious or unexpected result is seen from the homogenizer settings in claim 11 because the homogenizer of example 5A would have been expected to provide adequate homogenization to prepare the emulsion of the claims.

No claim is allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory

period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carolyn A Paden whose telephone number is (571) 272-1403. The examiner can normally be reached on Monday to Friday from 7 am to 3:30 pm.
